ALL ACCESS WITH TIM KRING

We're all very excited about the next volume of Heroes (volume 5) called "REDEMPTION." All of our characters, in one way or another, return to their normal lives after the turmoil and tragedy of "FUGITIVES."

One of the big issues we'll be exploring is how should a person with abilities live his or her life. Should they try to assimilate by hiding their abilities, or should they live more honestly, exposing their powers to the world?

Claire will be at the forefront of that issue, starting college in Washington, D.C., and trying to discover, as all college kids do, who she really is. But re-adjusting to normal life won't be easy, especially when Claire is caught in the crossfire of her parent's divorce and a mysterious suicide on campus.

Meanwhile, Peter and Nathan are trying to get their lives back on track. Peter is trying to be a hero in the purest sense -- saving one life at a time. But that means cutting himself off from friends and family. It's only when Peter makes a romantic connection with a fascinating new "powerful" woman that he'll find out that life means staying connected to others. Nathan is discovering new things about himself everyday, mostly due to the fact that he's actually Sylar.

Matt will have to live with the guilt of what he did to Sylar; making his attempts to live a normal life with his wife and child virtually impossible.

Noah Bennet (HRG), with help from Tracy Strauss, Angela Petrelli and all of our heroes, is tasked with forming a new COMPANY. But that new organization won't be concerned with conspiracies and prisons anymore. It will be about people. Finding them. Connecting to them. And figuring out why so many of them have been seduced by another "organization" out there that treats people with abilities in a fascinating, dangerous and potentially deadly new way.

SUPER HIRO - MASI OKA

In three seasons of Heroes, Hiro has gone through enough loss, darkness, and terror to dampen even his loveable naivety. In an exclusive interview with Heroes Magazine, Masi Oka talks about the challenge of showing that Hiro has been affected by his experiences while retaining his unique personality: "One of the great things about Hiro is his innocence, and that's what the comedy comes out of a lot of the time -- his childlike wonder. I think his innocence is gone now, but his purity is still there. He still believes in people, he believes in destiny, and he's just like a pure being, in the sense that he can be influenced by good and evil."

SYLAR'S HIT LIST

A lot of the evolved humans who have featured on Heroes have met a gruesome end thanks to television's most fearsome serial killer, Sylar. In the latest issue of Heroes Magazine, take a look at Sylar's string of unfortunate victims -- all heroes in the making who fell before their time.

+ Heroes Magazine takes a regular look at real life powers that Sylar could attain without killing anyone, if he really put his mind to it -- in the latest issue, super strength is under the spotlight.
